Mr. C. K. Murray, of Charlottesville. Va., writes that for years he was afflicted with boils which caused him much suffering. These were succeeded by carbuncies, of which he had several at one time. He then began the use of Ayer's Sarsaparilla, and after taking three bottles, the carbuncies disappeared, and for six years he has not had even a pimple.

That insidious disease, Scrofula, is the fruitful cause of innumerable com-plaints, Consumption being only one of many equally fatal. Eruptions, ulcers, sore eyes, glandular swellings, weak and wasted muscles, a capricious appetite, and the like, are pretty sure indications of a scroftlious taint in the system. Many otherwise beautiful faces are disfigured by pimples, eruptions, and unsightly blotches, which arise from impure blood, showing the need of Aver's Sarsaparilla to remedy the evil.

Ayer's Sarsaparilia to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparilla a fair trial,—avoiding all powders, ointments, and washes, and especially cheap and worthless compounds, which not only fall to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.

Twenty-first Annual Convention of the Clark County Sunday School Union.

Large Attendance at the Meeting Held at Plattsburg-Election of Officers-Wonderful Work by the Sunday Schools -Detailed Report.

The twenty first annual convention of the Clark county Sunday School Union cona very full representation of delecates from tested from the opening exercises until the close, showing a fervor surpassing any former gatherings for many years. In the the president, B. F. Prince, and partici-

schools throughout the county, showing a decided gain to the Sunday school interests. Some have been dropped from the rolls and new ones have been organized, One striking feature was the great spiritual ing done. He had attended over twenty meetings, and was well pleased with the activity shown. This depended largely activity shown. This depended largely on the interest the vice presidents and secretaries of townships took in the work.

Where they have been active and energetic the meetings had been also. Greene and Mad River townships, had made great progress, and in Moorefield and German townships every school texcept one) had held a mass meeting with great spiritual profit. The president's address was full of practical points and suggestions and will no doubt be the means of stimulating all to greater effort to bring their schools up to the highest possible standard. He desired all teachers to teach from the Bible, more than from the many "help . 'as There is no space for further statement of the many beautiful thoughts expressed in this address, but every earnest Sabbath School worker in the county should have heard it and received the profit of the

The following committee was appointed to make selection of officers for the current

Geo. W. Winger, city: Mr. Snider, Bethel township; C. O. Wilderson, Harmony town-ship; A. B. Runyan, Pleasant township; J. E. Fennimore, German township; Job Evans, Greene township; J. D. Baker, Mad River township; T. D. Fisher, Moore, leid.

The reports of township vice presidents and secretaries were called for and a general response was made from all except Pike and Madison In every quarter the reports were cheer-ing, but as the secretary's report cubraces a full statistical table of the several town-ships, further mention here is omitted.

The discussion of the subject, "The Sunday school Union; object of organization; place in Sanday school work; its present and future," was ably participated in by Joel Little, G. W. Winger and M. L. Sise, each taking the clause of the subject in its

Mr. Little stated that the real object of the organization was to bring souls to Christ; all other objects being secondary. His remarks were full of bright, earnest thoughts and given with a view of showing that his heart was in the work.

Mr. Winger exemplified the next topic at considerable length, showing how much

great and good work can be done by thorough, active workers: the necessity of sys-tematically carrying on the work, and the to the service.

Mr. Sise explained the condition of the Sunday school interest, the great difficulty in obtaining willing workers to go out into the field to work for its success. He paid a high compliment to the president, who had not even once refused to go or asked to be excused when called upon, but alwaywas ready with the response to the call.
"Yes, I will go," and went accordingly. If all were thus willing to go the future would be bright indeed, and the Master's cause be carried forward to a greater degree than ever before. Mr. Sise suggested that some form of organization should be marked out to govern the executive board; that they should meet quarterly at a stated or fixed time; that each township should have its member, and consecutively a mass meeting should be called for every township until all were passed. This view was received with some favor and resulted in a committee of three, with Mr. Sise as chairman, being appointed to formulate an order of business that shall govern the executive committee, and vice presidents of the townships in the calling of meetings, etc. This report is to be made to the executive committee for their approval and adoption. Mr. G. W. Winger and Mr. I. H. Kelley were appoint

ed as the remainder of the committee.

The hour for dinner having arrived, the meeting was closed until 1:30 o'clock. The ladies had prepared a repast on tables just outside the church, under the trees, to which all were cordially invited.
Others also were seated on the ground in family groups, and no one was permitted to go away hungry, as there was an abundance of good things, to which all did ample fus-

tice. It was really a banquet of which any exterer might be proud, a menu that would place those published at many notable gathrings far in the back-ground.

The president again called the conven tion to order promptly on time.

After being led in prayer by Rev. C. J. Burkert, the committee on nominations was

called upon to report, and the following is their report for officers of the local union: For president—B. F. Prince, Springfield, For vice president-J. M. Jones, South
